MESSAGE OF THE BOARD CHAIRMAN

It is an honor for me to present the 16th Annual General Meeting of the shareholders of Nib International Bank. During the fiscal year 2014/15, the Board of Directors has observed a slightly better performance over the preceding year.

The overall economic environment of the country has shown improvements during the year under consideration. This is reflected in the increase of the Bank's volume of operations and the level of its financial and non financial profits and achievements during the year 2014/15.

The challenges of the future is expected to be much tougher than before requiring a thorough thinking to map NIB's future in line with the newly adopted GTP II. As part of implementing our strategic priorities, the Bank has undergone structural adjustment and change management processes. A review of the implementation of the plan has been performed and progress is found successful particularly in laying down the foundations.

Woldetensai Woldegiorgis Chairman, Board of Directors

One of the main assets for achieving our objectives is through motivated and authentic team, which takes our responsibility and communicates the Bank's fundamental values. This is expressed in our leadership's mission, which we revised and gave a sharper focus a few years ago. We will act in compliance with the following guiding principle 'The Bank that strives to stimulate growth'. I would like to assure all shareholders that in the years to come, the Bank will strongly peruse the laid down strategies to bring about improved changes. On behalf of the Board, I would like to extend my heartfelt appreciation to our esteemed customers for having us as their partner, the energetic workforce of NIB for their dedicated effort, the NBE officials for their significant guidance, correspondent banks, public and private institutions for their cooperation and effort. Without all these, the result registered could have not been perceived.

Woldetensai Woldegiorgis

Chairman, Board of Directors

October 2015

In an effort to meet the demand for that part of the community that requires Interest Free Banking products and services, the Bank made all the necessary preparations and will start implementing in early coming financial year.

As Human Resource is a vital element of the Bank's operation, we have undertaken capacity building of staff and management through training and a lot has been done towards employee motivation and inspiration through various means.

The Government's commitment in managing the inflation rate to stay at single digit has contributed in empowering the saving capacity of the society. This is one of the major success factors for banking business though price rise has been observed in some commodities during the last quarter of the financial period under consideration. Moreover, the close supervision and follow-up of the NBE gave us strength to build our capacity and sound regulatory relationship.

Finally, I would like to take this opportunity to express my gratitude to the Board of Directors for their tireless support and leadership to realize the strategic objectives of the Bank. I am also happy to express my appreciation to the Management and employees of the Bank for their unreserved effort towards achieving the Bank's overall objectives and goals. With concerted efforts of all employees of the Bank, shareholders, business partners and stakeholders, I have full confidence that we will attain a remarkable result in the 2015/16 financial year.

Kibru Fondja President

Annual General meeting of shareholders in session

DIRECTORS' REPORT

1. BACKGROUND

1.1. GLOBAL ECONOMIC SITUATION

According to the IMF's World Economic Outlook (WEO) of April 2015 report, global growth in 2014 was a modest 3.4%, reflecting a pickup in advanced economies and a slowdown in emerging market and developing economies relative to the previous year. The report shows that the global growth picked up in the second half of 2014 and the growth in advanced economies accounted for much of that. Growth is projected to be stronger in 2015 relative to 2014 in advanced economies, but weaker in emerging markets, reflecting more subdued prospects for some large emerging market economies and oil exporters.

Growth in emerging and developing economies is projected to decline from 4.6% in 2014 to about 4.3% in 2015 and rise to 4.7% in 2016. Sub-Saharan Africa remained strong in 2014 at 5.0% growth rate and projected to be 4.5% and 5.1% in 2015 and 2016 respectively.

The overall growth of world output is forecasted to strengthen from 3.4% in 2014 to 3.5% and 3.8% in 2015 and 2016 financial year respectively.

The World Economic Situation and Prospects (WESP) 2015 first quarter report shows that inflation is projected to decline in 2015 in both advanced economies and most emerging market and developing economies, reflecting primarily the impact of the decline in oil prices. In advanced economies, inflation is projected to rise in 2016. In the United States, annual inflation in 2015 is projected to decline by 0.4%. Inflation in Sub-Saharan African countries has declined to 6.3% in the period from 6.4% of last year.

According to World Bank January 2015 report, global trade performance has been disappointing in recent years. Except for a solid post-recession rebound in 2010, when global trade rose 13%, it has been relatively subdued in recent years, averaging 3.4% annual growth rate between 2012 and 2014. This rate is well below the pre-boom average growth of about 7% per annum.

The slowdown in global trade has been driven by both cyclical factors, notably persistently weak import demand in high-income countries, and structural factors, including the changing relationship between trade and income. Specifically, world trade has become less responsive to changes in global income because of slower expansions of global supply chains and a shift in demand towards less import-intensive items.

1.2. DOMESTIC ECONOMY

The Ethiopian economy has continued to attain fast and broad-based growth making a 10.3% annual growth in the 2014/15 financial year which is almost double to that of 5.0% of Sub-Saharan Africa in the period. Information from Ministry of Finance and Economic Development shows that the country is placed in the list of the 10 fastest growing economies in the world. During the financial year, the country's macroeconomic stability was found to be somewhat unstable by registering annual average inflation of 11.3% from 8.1% in 2013/14 financial year.

As per the information obtained from Ministry of Trade, the country's export earnings reached USD 2.99 billion (59.5% of the plan) and shrank by 8% in 2014/15 from USD 3.25 billion of last

year. Coffee continues to lead export earnings with USD 780.2 million by registering a growth of 8.5% from last year balance of USD 718.8 million in 2014/15. Revenue earned from Oilseeds took the second position albeit it shows significant decline of USD 140 million with a balance of USD 503 million during the fiscal year compared to last year balance of USD 643 million. Revenue from Mining similarly registered a decline of 23% compared to the previous year's achievement. Export revenue from Gold in particular declined by USD 118 million (25%).

In particular in the 2014/15 fiscal year the country earned USD 271.25 million (9%) from Chat, USD 220.3 million (7.4%) from Pulses, USD 203 million (6.8%) from Flowers, USD 131.5 million (4.4%) from Leather, USD 98 million (3.3%) from Textiles and USD 45 million (1.5%) from vegetable & fruit. The report indicats that; lack of coordination between responsible bodies is one of the causes for the missed target. Lack of manufacturing input supply, sub-capacity production, challenges in international price competition and oversupply of export products to local market are also said to be challenges that have led to weak performance.

A broad based infrastructural development and investment in the energy sector has also continued as well which in turn positively contribute a lot for well functioning of the financial sector.

2. MAJOR ACTIVITIES AND ACHIEVEMENTS

Some of the major activities performed during the financial year were:

- The task of office standardization and image building activities in line with the Bank's new logo has continued intensively throughout the period. Aggressive promotional activities have been also made through various channels in order to publicize the Bank and its new products and overall banking services to the general public.
- With the aim of providing fast and efficient banking services to its customers, the Bank has effectively carried out the implementation of Mobile and Internet Banking by preparing all the necessary policy and procedure manuals in the period. Besides, to enhance its international banking accessibility, the Bank has also commenced MasterCard service and acquiring of Visa card is to go live soon.
- With the objective of relieving the ever increasing rent expense, the Bank has finalized the purchase of office space located around 22 Mazoria.
- The construction of the HQ building project is being carried out in two major phase; on the first phase, excavation, concrete shoring and pile foundation works are included while the second phase includes basement and upper structure building construction work. Accordingly, the first phase construction work is progressing at a satisfactory rate. The mass excavation work and concrete shoring pile work is 100% completed. However, the structural pile work is only 35% completed, the major challenge for the pile foundation work is the unexpected geological formation of the site that is existence of a very strong basaltic rock layer that hindered the rate of pile foundation drilling which finally reached 40 meters below the ground level. In spite of the challenges, the remaining foundation work is expected to be finalized until the mid of October 2015.

Regarding the remaining (Sub and Super structure) construction work, an international bid was floated.

- Inline with the Banks' plan to build different branch offices and multipurpose building projects in different major towns of the country, the soil investigation and design preparation work for Hawassa and Dukem is 100% completed. In this respect, the construction tender document proposal is under progress and recently a bid is floated for both buildings.
- The construction of Wolkite branch office building is completed and put to operation in the financial year under consideration.
- With the aim of having its own building and office spaces, studies were undertaken to purchase office space (buildings) around Ayat, Adama and Hossana.
- In order to facilitate the smooth operation of the Bank and to comply with the ever changing banking service needs and National Bank directives, a number of policy and procedure manuals have been prepared and improvements were made on existing ones.
- To expand the Bank's international banking service accessibility and increase foreign currency mobilization effort, the Bank has established an agreement with Hodan Money Transfer.

3. FINANCIAL PERFORMANCE

It is well understood that the financial performance of the Bank is the central and most vital part of this report. To this end, the Board of Directors is pleased to provide the detailed financial report for the year 2014/15.

3.1. BALANCE SHEET ANALYSIS

The overall assets of the Bank as at 30th June 2015 stood at Birr 13.3 billion registering a significant growth of 23.3% compared to that of the same period of last year. Out of the total assets, liquid assets constitute 13.6% which is lower by 6.2% compared to the preceding period. The decline is attributed to the 27% purchase of NBE Bills on new disbursement of loans and advances. The share of total loans and advances increased to 52.8% during the reporting period from 51.4% of same period of last year. Similarly, the loan to deposit ratio increased to 70.5% in the financial year from 68.3% on 30th June 2014. The Bank's total liabilities also stood at Birr 11.1 billion, registering a growth of 26.1% compared to the same period of the preceding year. Of which, total deposits constituted 88.2% of the total liabilities.

Financed projects: Saromaria & Fitsum Belay Hotels

The Bank's total capital, composed of paid-up capital, reserves, retained earnings and undistributed profit, reached Birr 2.2 billion. It showed an increase of Birr 213 million (10.8%) relative to last year balance. Out of the total capital, paid-up capital constituted 58.1%. The capital adequacy ratio of the Bank was 21.8% in the financial year which is well above the regulatory minimum requirement of 8% set by NBE. This indicates that the Bank's asset growth is adequately backed by proportionate growth of equity.

3.1.1. DEPOSITS

The aggregate deposit during the financial year stood at Birr 9.8 billion which shows an increment of Birr 1.8 billion or 23.4% compared to the balance of Birr 7.9 billion registered during last year same period.

The number of deposit accounts also reached 337,054 registering 21% growth during the reporting period. This is a clear indication of public trust on the Bank which is increasing from time to time.

The details of deposits are presented in Table 1, Charts 1 and 2 below.

Table1: Deposit by Type In '000 Birr

3.1.2. LOANS AND ADVANCES

At the close of the 2014/15 financial year, the Bank's total outstanding loans and advances stood at Birr 6.9 billion. When compared to the preceding year, it showed an increase of Birr 1.5 billion or (26.7%). The NBE directive that requires private banks to purchase NBE Bills which equals to 27% of each loan disbursed has greatly affected the liquidity position and lending capacity of our Bank.

Financed projects: Tracon Coffee Processing

During the period under consideration, asset quality of the Bank was at a good position that complies with the statutory requirement which is the result of rigorous monitoring and follow-up activity by the Bank's management.

This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITORS' RESPONSIBILITY

- 3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we considered internal control relevant to the preparation and fair presentation of the financial statements in order

ጌታቸው ካሣዬ ሽና 3ዶቹ Getachew Kassaye & Co. Chartered Certified Accountants

to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. The audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

OPINION

- 5. In our opinion, the financial statements represent fairly the financial position of the Bank as at June 30, 2015, and its profit and cash inflows for the year then ended.
- 6. We have no comments to make on the report of the Board of Directors relating to the financial matters and pursuant to article 375(2) of the Commercial Code of Ethiopia of 1960; we recommend that the above mentioned financial statements be approved.

1. BACKGROUND

Nib International Bank is a privately owned commercial bank established in 1999 in accordance with the "Licensing and Supervision of Banking Business Proclamation No. 84/1994" of Ethiopia, now superseded by Proclamation No. 592/2008 to undertake commercial banking activities.

The Bank obtained its license from the National Bank of Ethiopia (NBE) on 26, May 1999 and started its business activities in the month of October 1999. It operates through its Head Office in Addis Ababa and 105 branches and 3 agency offices for foreign exchange transactions in and outside Addis Ababa.

2. BASIS OF PREPARATION

These financial statements have been prepared in accordance with the historical cost convention, Generally Accepted Accounting Principles (GAAP) and laws and regulations of Ethiopia including the commercial Code of Ethiopia 1960, the Banking Business Proclamation No 592/2008 and the Directives of the National Bank of Ethiopia. The Bank maintains its accounting records in accordance with Ethiopian banking and accounting regulations. These financial statements have been prepared from those accounting records and adjusted as necessary in order to comply with GAAP. The financial statements have been prepared on the going concern basis.

The preparation of these financial statements requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as at the date of the financial statements. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

3. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted by the Bank are stated below:-

3.1 Fixed assets

Fixed assets are stated at cost, less depreciation. Depreciation is applied on a book value by adding additions and deducting disposal proceeds except for building and intangible assets:

Building	5% straight line
Computer hardware and software	25%
Other assets	20%
User right on lease	10% straight line

3.2 Intangible assets

Expenditure incurred before the commencement of operations is treated as pre-operational costs and amortized on the straight-line method for an expected useful life of 5 years.

3.3 Interest income and expenses

Interest income and interest expenses are accounted on the accrual basis.

3.4 Bonus

Bonus and compensation for services of the bank's employee's are accounted for when paid.

3.5 Other income

All other income is accounted for at the time of completion of related banking transactions.

3.6 Conversion of foreign currencies

- (i) Foreign currencies denominated transactions are converted into Birr at the prevailing rates of exchange and realized foreign exchange gains or losses are reflected in the profit and loss account.
- (ii) Year-end balances of foreign currencies on hand and with correspondent banks are converted into Birr at the closing selling rates on the balance sheet date.

3.7 Off-setting

Financial assets and liabilities are off-set and the net amount reported in the balance sheet only when there is a legally enforceable right to offset the recorded amounts, and there is an intention to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.8 Provisions for loans and advances

Loans and advances are financial instruments originated by the Bank by providing money to the debtors. The loans and advances are stated at cost less impairment losses. Impairment losses comprise specific provisions against debts identified as bad and doubtful and general provisions against losses which are likely to be present in any loans and advances portfolio. The Bank follows the National Bank of Ethiopia, Supervision of Banking Business Directive SBB43/2008 in determining the extent of provisions for impairment losses. The Directive classifies loans and advances into the following;

i) Pass Loans

Loans and advances in this category are fully protected by the current financial and paying capacity of the borrower and are not subject to criticism. In general, loans and advances, which are fully secured, both as to principal and interest, by cash or cash substitutes, are classified under this category regardless of past due status or other adverse credit factors.

ii) Special Mention

Any loan or advance past due 30 days or more but less than 90 days is classified under this category.

iii) Substandard

Non-performing loans or advances past due 90 days or more but less than 180 days is classified under this category.

ይሥሯል ክልብ፣ እንደ ንብ ! The Bank that Strives to Stimulate Growth!

iv) Doubtful

Non-performing loans or advances past due 180 days or more but less than 360 days is classified as doubtful.

v) Losses

Non-performing loans or advances past due 360 days is classified as loss.

As per the Directive, the provision for impairment losses are determined as follows:-

No.	Loan Category	Extent of provision required
1	Pass loans	1% of the outstanding loan balance
2	Special mention loans	3% of the outstanding loan balance
3	Substandard loans	20% of the net loan balance
4	Doubtful loans	50% of the net loan balance
5	Loss loans	100% of the net loan balance

Note: Net loan balance is outstanding loan balance less net recoverable value of collateral.
